SAGE | INVEST WITH WISDOM™

Who We Are

- Founded in 1996
- 100% employee operated
- 17-member investment team has an average industry experience of 18 years
- Deliver fixed income SMAs across the yield curve

Why Sage

Agility

Our size and independence as an employee-controlled firm enable us to take a nimble approach.

Alignment

We customize the investment experience to align with each client's unique objectives and needs.

Consistency

We have a tenured investment team and proven process that enable us to deliver expected results.

Culture

We are committed to cultivating a culture of service and trust among our clients, our employees, and our community.

Who We Serve

Community Reinvestment

How We Give Back

At Sage, we're deeply committed to continuous learning and growth — supporting both professional and personal development. Our focus extends beyond the workplace, fostering partnerships with nonprofits, reinvesting in our communities, and cultivating meaningful peer connections.

Our Approach

Investment Philosophy

We believe that over complete market cycles, consistent returns are driven by income generation, value opportunities, and rigorous risk management practices.

Generate Income

Generate a consistent income advantage by harvesting a diversified set of risk premiums: duration, credit, structure and liquidity.

Capture Value

Capture value opportunities by taking advantage of market dislocations due to unexpected volatility or market inefficiencies.

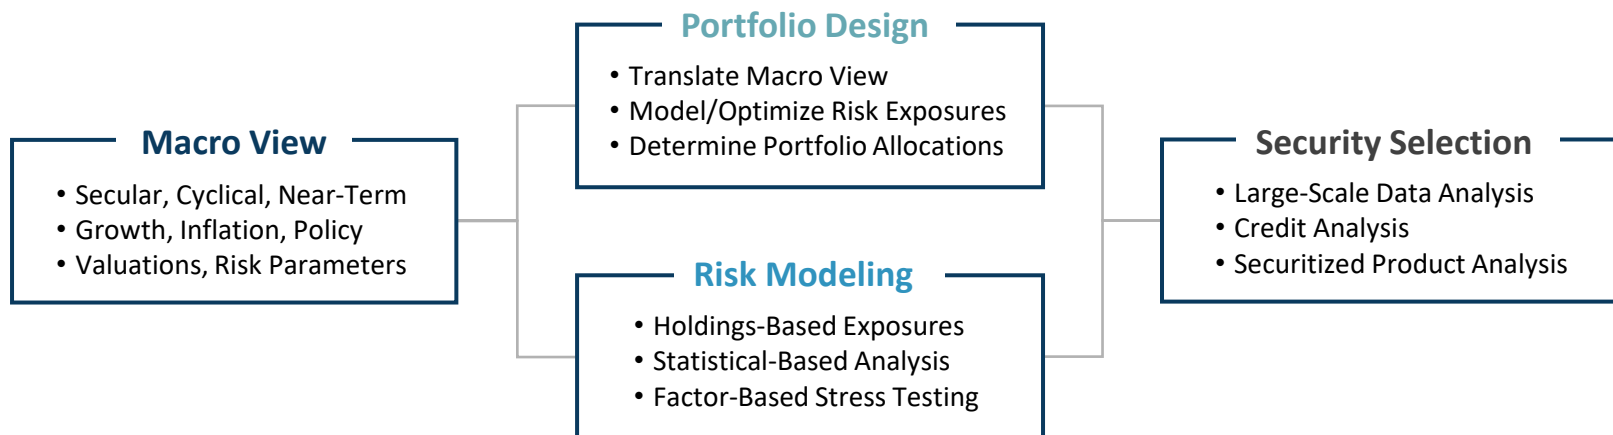

Manage Risk

Actively manage portfolio-level risk to ensure alignment with investment outlook and client objectives.

Our Approach

Investment Process

Our teams work together to balance the development of our macro views with thoughtful portfolio design, value-driven security selection, and active risk management.

Our Approach

Risk Management

We believe that successful risk management requires a multi-dimensional approach utilizing holdings, statistical, and factor-based analysis.

Holdings-Based Measures

Traditional risk measures such as key rate durations, sector exposures, quality distributions, and spreads – relative to market-based indices or custom liability-driven benchmarks.

Statistical-Based Analysis

Analysis of exposures to key factors that impact fixed income portfolios (rates, volatility, spreads, etc.) and the determination of factor contributions, the expected volatility of returns, and tracking error.

Factor-Based Stress Testing

Dynamic scenario testing across simple, historical, and more complex hypothetical factor-based events to determine the distributions of expected returns and tail-risk sensitivities.

Fixed Income Strategies

Strategies Across the Yield Curve*

Short Term	Intermediate	Core	Long/LDI	Credit	Municipal
Enhanced Cash	Moderate Term	Core Aggregate	LDI	Intermediate Corp	Muni Total Return
Short Term	Intermediate Term	Core Plus	Long Term	High Yield	Muni Ladder

Customization Options

Client Application

Customize to the unique purpose of asset pool

Example

Pension plan de-risking, insurance co. reserves, hospital operating pools

Maturity/Duration

Target a max maturity, duration or ladder

Example

Maximum maturity of 5 years or duration of less than 1 year

Credit Quality

Restrict, limit, expand ratings categories

Example

Allow allocation to below-IG bonds to enhance yield

Cash Flow Targeting

Align portfolio with known liquidity needs

Example

Manage maturities and cash to fund quarterly distributions

Responsible Investing

Limit or exclude certain industries or securities

Example

Apply faith-based screens to a corporate bond allocation

Custom LDI Solutions

Our Approach

We start with the end in mind. The relationship between assets and liabilities is a key consideration of the planning process because ultimately, our liability-driven approach is about managing risk. Each account is customized and measured against a custom liability benchmark.

Process

Initial Diagnostic

Analyze liability characteristics, evaluate varying degrees of LDI adoption.

Portfolio Implementation

Accounts are separately managed and measured against a custom liability benchmark.

Ongoing Analysis

Produce quarterly diagnostic, measure changes to both assets and liabilities.

Long-Term Goals

Benefit Immunization

Deficit Reduction

Surplus Optimization

Hibernation/Termination

Pension Risk Transfer

ETF Models

Our Approach

Our ETF model portfolios offer fixed income, equity, or blended allocations—designed to work within reasonable portfolio risk constraints while delivering diversified, actively managed, risk-adjusted returns across market conditions.

➤ Top-Down Approach

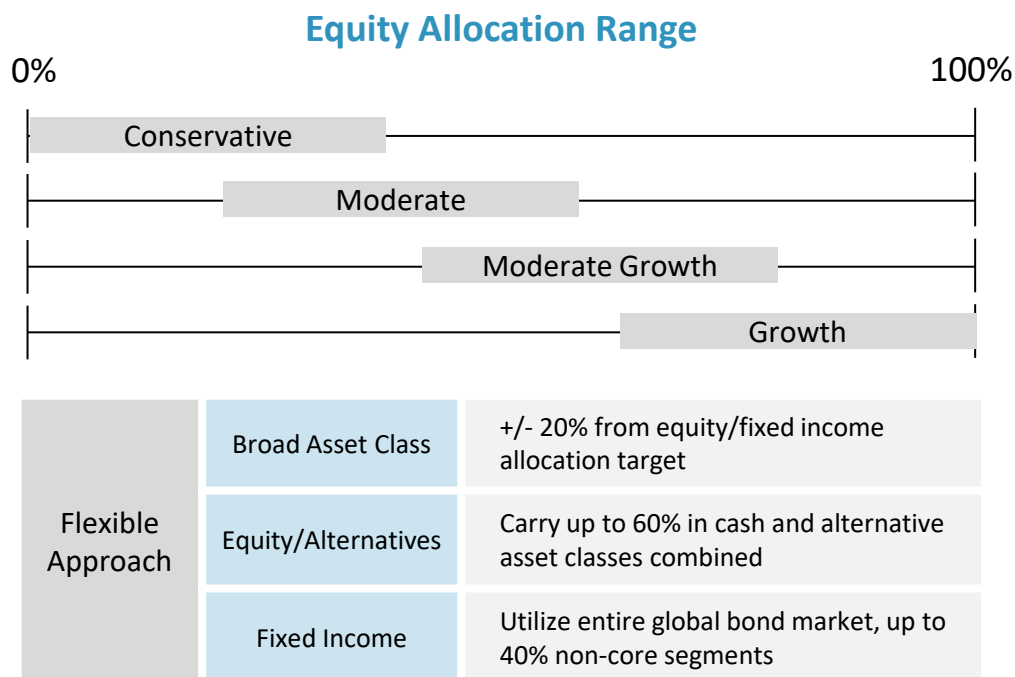

drivers include macro, policy, valuation, and sentiment

➤ Active Management

dynamic portfolio allocation based on 3-6-month outlook

➤ Risk Management

risk budgeting and stress testing are core to process

Responsible Investing Strategies

Our Approach

We offer scalable fixed income and equity strategies that integrate our proprietary sustainability approach, ensuring broad diversification and strong risk management.

Industry Analysis

Materiality

Analyze factors that are most relevant to a company's financial performance and long-term value creation.

Sustainability Risks

Develop a sustainability profile of the industry based on quantitative and qualitative factors.

Exceptions

We minimize exposure to tobacco, coal mining/extraction, and small arms.

Company Analysis

Trends Analysis

Determine how a company is trending in the sustainability factors most relevant to it.

Peer Comparison

Compare a company to its industry counterparts to identify strengths, weaknesses, and competitive positioning.

Controversies

Assess the impact of negative incidents to understand risks and implications for sustainability performance.

Sage Leaf Score

Sage invests only in issuers that have a Leaf Score of 3 or greater

Sustainability Leader

Above Average

Sustainability Laggard

Values-Based Investing

Our Approach

Our Values-Based Investment practice integrates an investor's or organization's ethical, moral, or religious beliefs into their investment portfolios. Sage can employ a series of assessment screens designed to identify companies from our investment universe that are involved in activities that align with their values and exclude those that contradict them.

Sustainable Factors

- Identify material sustainability challenges across industries & companies.
- Apply our comprehensive “best-in-class” peer group rating system to identify an appropriate and sustainably focused investment universe
- Select companies rated sustainability industry leaders and avoid sustainability laggards.

Positive Factors

- Our positive or inclusionary factor analysis works to actively identify companies that promote positive ethical, social, and environmental practices.

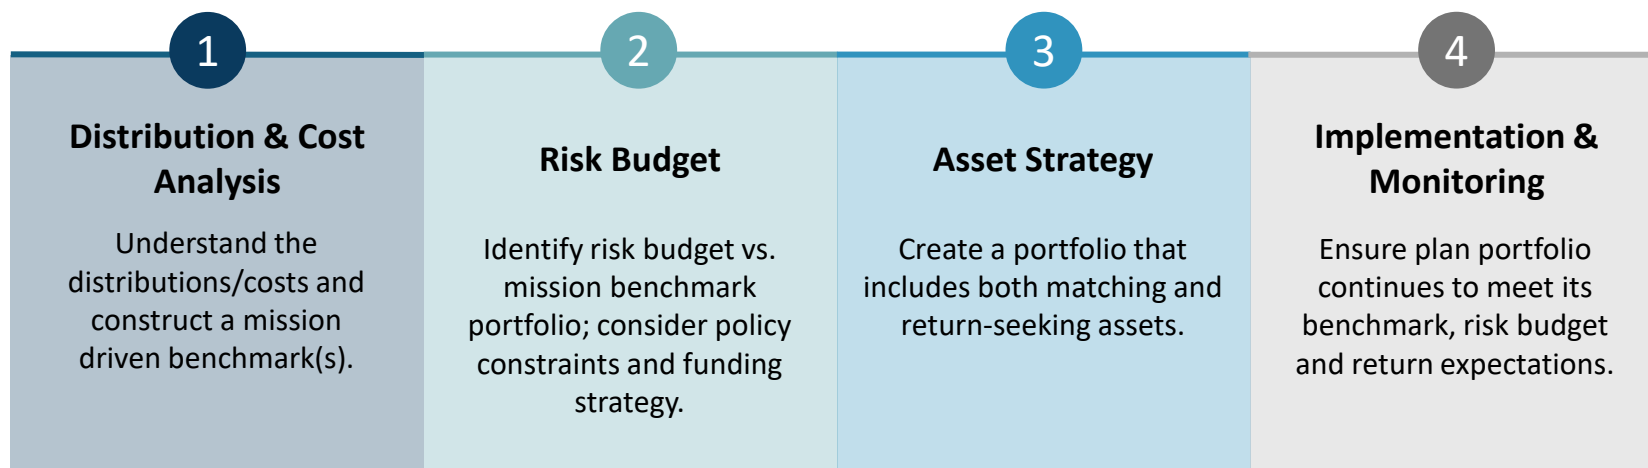

Negative Factors

- Our negative or exclusionary screening actively evaluates and excludes companies involved in activities that may contribute to adverse societal or environmental impacts.

Mission Driven Investing

Our Approach

We recognize that each organization has its own unique mission, funding needs, and spending policies. That's why our investment process is designed to create tailored disbursement benchmarks. These benchmarks offer an efficient framework for assessing client-specific risks and setting realistic return targets. Our goal is to help each endowment and foundation client achieve both their short-term and long-term objectives.

IMPORTANT DISCLOSURES

This report is for informational purposes only and is not intended as investment advice or an offer or solicitation with respect to the purchase or sale of any security, strategy or investment product. Although the statements of fact, information, charts, analysis and data in this report have been obtained from, and are based upon, sources Sage believes to be reliable, we do not guarantee their accuracy, and the underlying information, data, figures and publicly available information has not been verified or audited for accuracy or completeness by Sage. Additionally, we do not represent that the information, data, analysis and charts are accurate or complete, and as such should not be relied upon as such. All results included in this report constitute Sage's opinions as of the date of this report and are subject to change without notice due to various factors, such as market conditions. No part of this Material may be reproduced in any form, or referred to in any other publication, without our express written permission.

Investors should make their own decisions on investment strategies based on their specific investment objectives and financial circumstances. All investments contain risk and may lose value. Debt or fixed income securities are subject to market risk, credit risk, interest rate risk, call risk, tax risk, political and economic risk, derivatives risk, income risk, and other investment company risk. As interest rates rise, bond prices fall. Credit risk refers to an issuer's ability to make interest payments when due. Below investment grade or high yield debt securities are subject to liquidity risk and heightened credit risk. Foreign investments involve additional risks as noted above. Investing involves substantial risk and high volatility, including possible loss of principal. Bonds and bond funds will decrease in value as interest rates rise. Past performance is not a guarantee of future results.

Sage Advisory Services, Ltd. Co. is a registered investment adviser that provides investment management services for a variety of institutions and high net worth individuals.
