Customization Options

Sage recognizes that each investor has a unique financial objective, and we will collaborate to address their individual investing needs. Sage offers multiple customization options as well as access to our portfolio management team’s expertise.

Client Application	Maturity/Duration	Credit Quality	Cash Flow Targeting	Responsible Investing
<p>Customize to the purpose of asset pool</p> <p>Example Pension plan de-risking, insurance co. reserves, hospital operating pools</p>	<p>Target a max maturity, duration or ladder</p> <p>Example Maximum maturity of 5 years or duration of less than 1 year</p>	<p>Restrict, limit, expand ratings categories</p> <p>Example Allow allocation to below-IG bonds to enhance yield</p>	<p>Align portfolio with known liquidity needs</p> <p>Example Manage maturities and cash to fund quarterly distributions</p>	<p>Limit or exclude certain industries or securities</p> <p>Example Apply faith-based screens to a corporate bond allocation</p>

Investment Approach

We believe that over complete market cycles, consistent returns are driven by income generation, value opportunities, and rigorous risk management practices.

Generate Income	Capture Value	Manage Risk
<p>Generate an income advantage by harvesting a diversified set of risk premiums: duration, credit, structure and liquidity.</p>	<p>Capture value opportunities by taking advantage of market dislocations due to unexpected volatility or market inefficiencies.</p>	<p>Actively manage portfolio-level risk to ensure alignment with investment outlook and client objectives.</p>

Investment Process

Our teams work together to balance the development of our macro views with thoughtful portfolio design, value-driven security selection, and active risk management.
